

The Pony Club was founded in Great Britain in 1929 and has become the largest association of riders in the world. It is represented in no less than 14 countries and has a membership exceeding 110,000.

Whether you have your own pony or not, Pony Club is the best starting point for all children who want to learn how to ride.

We offer two types of Membership:

- Branch Membership is for children who have regular access to a pony that they can take to Pony Club events, such as Working Rallies and Shows.
- Centre Membership is for children who prefer to go to a Riding School to ride. Rallies are arranged at the stable yard, so that members need not travel in order to have fun and learn.
